

ADVISORY BOARD IS LATEST IDEA

Committee of Citizens Will Help Guide the Ship of State

AT SOUTH CONNELLSVILLE BORO.

The Advisers Will Not Only Hand Out Chunks of Wisdom to Burgess, But to Council, School Board and Much Offended Ittemour as Well.

South Conneltsville has an advisory board. Burgess Shattell Lee and other leading citizens of the new municipality have named five members whose duty will be to give advice on matters of civic government. Their wisdom will be sought not only by Burgess Lee, but by the members of Council, the School Board and the much-offended Samuel Ittemour.

This board, composed of the leading citizens of the new borough, is to be a power in the politics and the industrial development of the town. While not empowered with any particular authority, its word in matters relating to the welfare of the town is to be heard and it is understood that the various governing bodies of the borough will follow the board's advice at all times.

HIGH CONSTABLE RITENOUR FLAG RUNAWAY YOUTH

Brought Him to Police Station Here and Was Given Short of Transportation Charges.

TUESDAY EVENING, JAN. 23, 1912.

President Willard's Safety Plan.
The Baltimore & Ohio employees' safety movement, inaugurated by President Daniel Willard, a man who
came from the ranks, is in his own language both a "moral and financial" movement.

It is moral in the sense of being humane, and financial in the fact that the safety of the employee is often the safety of the company's property. The movement is one in which the company and its men are mutually interested. There is no reason, therefore, why it should not prove a complete success.

President Willard proposes: (1) Safety; (2) Comfort; (3) Efficiency. Comfort will promote safety and efficiency will promote efficiency and encourage good habits. Good habits help to make good men, and good men usually make good work. From every point of view, therefore, President Willard's combination for humanity, efficiency and economy is an excellent one, and it should receive the earnest support of the Baltimore & Ohio employees.

Nor is the traveling public entirely disinterested in the movement. It must necessarily apply to the operation of trains, the proper maintenance of equipment and of track, thus reducing to a minimum the dangers of travel and the annoyances of delay. For this reason, President Willard's plan will receive the hearty commendation of the public.

The plan might be adopted by other railroads with profit.

Burglars who with exhaustive effort pay their damages may later expect to find all the money in the till are poorly advised as to the habits of the modern merchant. The business man of today keeps his money in the bank and what he takes after the closing of the day's business is locked up in the safe.

The deadly open game has gotten in the work in Connelleville.

Bitter winter seems to have returned to Connelleville.

Politics will soon warm things up.

The Steel Corporation has distributed its pension fund for the past year and the Connelleville coke region gets a liberal share of it. The United States isn't the only United States that punishes its veterans.

The streets need washing.

The Western Maryland is making a lot of noise just now.

Colonel Bill Fitch and Colonel Dick Quigg are making a great splash in national politics this year.

Colonel Rock of the Pittsburgh Dispatch is a receptive candidate for Congress in the future. The executive newspaper publisher is getting more political recognition in Pennsylvania than he has had for some years.

Even runaway youths head for the Center.

The accidental death of James T. Harahan and other railroad men proves that the care of a passenger train is not always the safest.

Institute week in Connelleville. Our teachers do not have to go to Uniontown any more for their mental tuition.

Connellsville's glass brick business is growing by leaps and bounds. Keep an eye on this industry. It's a going concern.

Pittsburg's industries are smoking up vigorously, and their smoke is reflected in the Connelleville coke region.

Taking medicine in the dark is dangerous business.

South Connelleville borough has no lock-up, so the policeman in it takes his prisoners prisoner to come around and see the burglar's next morning. The arrangement is satisfactory enough until morning.

The little Michigan children have the merit of final obduracy.

John Mitchell's reputation at Indianapolis indicates that he doesn't need to worry much over the charges brought against him in the United Mine Workers' Convention.

The Farmers' Club of Fayette county shows that club life is just as popular in the country as in the city.

WASHINGTON
CORRESPONDENCE.

United Press Special.
WASHINGTON, Jan. 23, 1912.
The famous—rather once famous—Fulton Market, bounded by Fulton, South, Deckman and Front streets, is doomed. Controller Prondorog and Borough President McAnany have written a letter to President Mitchell of the Board of Aldermen recommending that Fulton Market be discontinued and the property turned over to the Sinking Fund Commission for such disposition as it may see fit to make. This recommendation was made after a careful study of the present uses and the physical condition of this old market, which showed conclusively that the market is an expense to the city which is not warranted by necessity nor by any public benefit.

Fulton Market was established in 1817 for the purpose of supplying the "common people with the necessities of life at reasonable prices." Its assessed valuation today is \$25,000, of which \$10,000 is for the land and \$15,000 for the building. For many years Fulton Market has been steadily depreciating both as to patronage and its physical condition. The population which is previously served has apparently moved away and the market trade has been changing gradually from retail to wholesale. Of the 348 stands in the old and dilapidated structure, only about 45 are at present occupied.

The suffragettes of New York are planning a bold and aggressive campaign for the present year. Recently the National Woman Suffrage Association was presented for the contribution of \$10,000 by Mrs. Mary J. Coggeshall, of New York, to be used for agitation purposes and a considerable part of that sum is to be used to further the suffrage cause in New York. The suffragettes have decided to carry on a rather spectacular propaganda and to attract attention by various means. They are having built a large yellow bullet box, bearing in large letters the inscription "Votes for Women." This box will be exhibited on some of the principal streets of the central part of the city and will be surrounded by suffragettes who will distribute anti-suffrage literature to all who are willing to accept it. Several of the suffragettes are going to make a tour of the principal streets with a hand organ to attract attention and to advertise the "suffrage ball" to be given in the Murray Street Lyceum on February 8. There will be no money to distribute handbills. The women intend to do their own distributing.

The churches of New York have started a movement in favor of a law which would compel every house owner to put his money in the hands of every house owner by him. This movement is directed against the numerous dens of vice scattered through the city and is bitterly opposed by a large number of wealthy men having extensive real estate holdings in this city. The reason is, of course, quite plain. Many wealthy and highly respected men and women own houses which are used for immoral and otherwise improper purposes, with the full knowledge and connivance of the owners. The secret of the ownership is well guarded by the agents of the owners. It would be a shock to the community to learn—a would be unavoidable under such a law as planned by the promoters of the public movement, that some of the most prominent members of the most aristocratic society circles and standing high in their respective churches own a number of notorious houses in the Tenderloin district or that the Ziegler estate, administered by a man of undoubted piety, Sunday school superintendent and leading member of a number of religious and reform organizations, has a large number of houses to notorious gambling house keepers and keepers of houses of ill repute.

POLITICS AND POLITICIANS.

The Democratic State convention of Missouri will be held in Joplin on February 1.

Among the first of the conventions to elect delegates to the Republican national convention will be those of Florida, on February 6, and Virginia, on March 12.

The Consolidated Republican Clubs of the United States, an organization of negroes throughout the country, has declared for the renomination of President Taft.

Woodrow Wilson, Governor of New Jersey, will be a speaker at the Washington day dinner to be given by the Kansas Democratic Club in Topeka February 22.

The Democrats of Oklahoma will hold their State convention in Oklahoma City, February 27, when twenty delegates to the national convention in Baltimore will be named.

Congressman M. D. O'Connell of the Eleventh Pennsylvania district is mentioned as a possible candidate for the Republican nomination for Governor.

The first candidate to announce for the Republican gubernatorial nomination at the primaries in Maine next June is William T. Haiges of Waterville.

Senator Henry Cabot Lodge of Massachusetts and Representative Frank H. Willis of Ohio are to speak at the Lincoln celebration in Springfield, Ill., next month.

In Illinois the congressional district conventions to elect delegates to the Republican national convention at Chicago have been called for April 17. The State convention to elect the delegates at large will be held two days later.

Alabama Republicans held a State convention last August, at which all factions were represented, and elected Taft delegates, but this convention has been declared null and void before the call of the national committee, another convention has been called for March 7.

As the Consumer Sees It.

THE RECALL.

By Isaac of Tikon.

The Recall is as old as the hills. It was first used in Adam. When Adam was appointed Warden of the Garden of Eden he began to reach out a little too far and do things which man in his position should not have done and the Recall removed him from office.

Had Adam believed himself and hung on to the power handles like a good farmer, he might have been in office today. Adam, no doubt, said to himself: "I have a nice office here. What I don't know about the apple, crop and market is not worth knowing. Of newspaper business or handling down opinions, but that can be learned later on. If business keeps up, I don't need to worry about the fall election."

In the days when Adam was good and labor cheap, a king attempted to erect a Tower of Babel. The contract was let to a big slave company, whooping and for the structure. About the time the contractors had completed the first story, a kick was raised and along came the Sheriff and served the Recall on the entire outfit. Work stopped at once. Self-confident contractors tried to get mechanics back but they were outwitted.

Time was when the Recall did not hurt. The Children of Israel had been working for many years at half pay for John Henry, a kick was raised and along came the Sheriff and served the Recall on the entire outfit. Work stopped at once. Self-confident contractors tried to get mechanics back but they were outwitted.

John Henry went into court and took out papers of Recall. He gave the writ to the ruling deputy and a lot of the Nile valley coal and iron men who chined before him and his men had trouble to follow the trail. About this time they thought they had little more to do than to get the Recall. The Recall county deputies and all waded in water up to their chins when all at once the big slave company came along and outwitted the entire bunch. The Recall failed.

The Recall was worked most beautifully in the rainy days of Rome. It was worked on Caesar, on Cicero and Antony and a lot of the boys who had their property assessed at about one-fifth its actual value. They were charged with the Recall. They were men who occupied the highest offices in the land and actually died. They were people from day to night until the Recall got busy and fixed all of their clocks.

Napoleon had the Recall put on him at Moscow and Waterloo.

All political churches and old political Plymouth rocks are very likely to be recalled if they do not dance to popular music.

The Early Buyer Will Be Impressed With Their Beauty and Newness of Pattern.

This is earlier perhaps, than has been our custom to offer the new styles in Rugs but none too early for those who wish to buy their floor coverings at the beginning of the season. We know that you will agree with us when we say that the patterns and colorings surpass anything the makers have created. The rich soft tones and high finish show marked progress in the art of rug weaving. While at present our showing is not complete we are offering a fair collection of new Wilton Velvets, Body Brussels, Bigelow Electras and Tapestries in regular 9x12 and smaller sizes from which to choose. Notwithstanding the fact that they have increased in beauty and quality, our prices for the coming spring in most cases will be even lower than those of past seasons.

SCOTSDALE, Jan. 22.—Although
having the largest obtainable hall in
town the Scottdale Agricultural
Institute found themselves handicapped
by a lack of space for the crowd
of last evening which closed the first
day's sessions of the institute. Nearly
600 people, half of them unable to find
seats, crowded into the large hall of
the Clever & Craft building last evening.
Those who stood were patient
for the speaker, the speaker of the evening
said after the meeting he had never
seen such a quiet and orderly crowd.
And they were quiet but for the sake of
laughter that broke them while he
talked.

The dinner quarters were during the
day and in the evening Miss Tracy
McWilliams and her High School Glee
Club of the Scottdale schools were in
fine style. This evening the East
Huntingdon High School Glee Club
will furnish the music.

The institute opened in the morning
with a remarkably large attendance
for the opening exercises about
200 and this number was largely in-
creased in the afternoon. Arthur J.
Porter was the chairman for the
morning session, Edward Workman
in the afternoon and W. C. Myers in
the evening. Mr. Porter gave the
invocation for the institute. Dr.
O. C. Engle delivered the address of
welcome, a most appropriate one for
such a gathering, and was highly
applauded by the audience. Mr.
Rufus L. W. Lighty of East
Berlin, one of the State speakers,
talked on "Dairying as a Business."
Mr. Lighty is a successful farmer who
took a worn out farm, built a home
and has a paying dairy herd. He has
been a lecturer for institutes for a
dozen years, and is an agricultural
counselor, giving his advice on these
subjects all over the country, just as
a specialist in medicine the law or
business does. He was followed by
Abner R. Loucks of near town and Mr.
Loucks gave a splendid talk on
"Hills, showing that the Scottdale
people can tell what they know and
tell it well. Mr. Loucks has used a
little about eight years and explained
his working thoroughly and asserted,
and gave the figures for it, that anthracite
is the cheapest food for the great value
that the farmer can produce.

Mr. Sutor, the dairyman of near
town who was the pioneer grower of
alfalfa in this locality, gave a most
interesting talk on that subject in the
afternoon. He traced the plant up
from the time it grew in the days be-
fore the birth of Columbus and gave
a thorough and painstaking talk on
the subject, in simple, comprehensive
style that like Mr. Loucks' address,
was unstinted commendation from the
hearers and the State lecturer, Dr.
Goodrich, the State man who fol-
lowed Mr. Sutor saying that he hardly
needed to talk on growing alfalfa. His
topic, after the excellent one in which
Mr. Sutor handled the matter.

Mr. W. Lighty talked on the Soil
Crop and How to Handle It. In the
afternoon and evening on the program
again in the evening on "The Farm
Home as it Should Be." These were
two practical talks that took well. Dr.
J. H. Watts of Clarksburg, a State
representative, talked on "Soil and
Apple Orchard." This is one of the
subjects that drew well on many are
interested in fruit about here, particu-
larly with the multiplication of the
Western Maryland County Horticultural
Association which has already gained
numerous members during the insti-
tute.

Robert S. Bonds on "Mistakes of
Life" exposed a man the lecture
eight months of the year and farms
for four years in Huntington county
was the star attraction. He is an
apostle of sunlight in the heart, as
well as on the soil and contends that
the human will grow with sunlight
and rain. He held the attention of
the big audience last night for over
an hour with the rapidest sort of
rapid fire of jokes that convinced the
listeners and made them vote. Bob
Bonds a king of entertainment.

Three sessions will be held today,
the first one starting at 9 o'clock. The
afternoon session opens at 1:30 and
the evening one will be at 7:30. "Edu-
cation for Farmers' Children" will be
the subject of County Superintendent
H. C. Shaw. H. M. Goodrich will
talk on "The Days and Nights of
W. J. Murk, of the Reform Club,
will review the institute, and N. R.
Lyons will be the chairman.

Clash Between Hitchcock and Hilles Is Now Acute,
and Indications are That One of Them Will Res'gn

WASHINGTON, Jan. 22.—A situation is fast developing here which indicates that either Frank H. Hitchcock will have to leave the cabinet or the President will lose the political services of Charles D. Hilles, his present secretary. The general impression in Washington is that Mr. Hitchcock will go. Mr. Hilles is now the foremost figure in handling the President's pre-election campaign and Mr. Taft has practically staked his political fortunes upon Mr. Hilles' ability. The feeling between Mr. Hitchcock and Mr. Hilles was first brought forcibly to public attention when Mr. Hitchcock opposed the naming of Hilles

Congressman Wilson Upheld
Socialists Get Radical Amendments
Injected into Constitution—Miners
Now Free to Endorse That Party if
They So Desire.

Special to The Courier
INDIANAPOLIS, Ind., Jan. 22.—
Yesterday's proceedings at the twenty-
sixth annual convention of the
United Mine Workers of America in
session here were marked by two fea-
tures. In the morning a victory was
achieved by the Socialist element in
injecting the proposed new constitution
of the organization amended in har-
mony with their plans while in the
afternoon a remarkable triumph was
achieved by John Mitchell, former
President of the organization over his
enemies, who had called him to ac-
count for his actions at the Atlantic
convention of the American Federa-
tion of Labor last November when he
voted according to his instructions as
a delegate but made an address con-
trary to his vote.
The forenoon was devoted mainly
to a consideration of the proposed new
constitution. The various sections
were read by Van Buren of the "Pro-
gressive" element who is Secretary of
the constitution committee. In the pic-
noble after some debate it was de-
cided to strike out the words that the
miners are entitled to an equitable
share of the fruits of their labor, and
to substitute to full social value
of our toil.
The amendment came from the So-
cialist element and was the subject
of a long and heated debate. In Article
I it was proposed that the mine work-
ers shall not have any particular religious
or political party, but after much debate
the words "of political party" were
stricken out. This amendment had
been especially desired by the advance
wing of the organization as it now
leaves open an endorsement on motion
of the Socialist party as the political
party of the organization.
When Mitchell and Congressman
Wilson entered the hall to defend
their action they were given ovations
before the members of the delegation
had made their reply to the ill-gat-
tered President White and he hoped
that the members of this convention
would not permit personalities to run
away with their judgment.
John Mitchell was the first to reply
to the allegations. He regretted hav-
ing been unable to attend the conven-
tion last year, and he said he might
have prevented certain conclusions
being reached as was done then. He
said the resolutions before the con-
vention called upon four of the dele-
gates to explain why they had failed
to carry out the instructions but as-
serted his address at Atlantic was
made in defense of his integrity as a
union man.
Mitchell spoke for about 30 minutes
and on concluding was cheered again
and again. Congressman W. J. Wil-
son of Pennsylvania was the next
speaker. He said his explanation was
different from that of Mitchell, he is
not a member of the National Civic
League and he first ascertain-

ed that the delegates had been in-
structed how to vote. These instruc-
tions did not represent his personal
views but he was instructed. At
the same time he expressed at At-
lanta his own personal views of the
National Civic League. He as-
serted that the American Federation
of Labor did not have the right to say
to any of its members that they shall
not belong to the National Civic Le-
ague or any other society.

CRITICAL TIME
OF WOMAN'S LIFE
From 40 to 50 Years of Age.
How It May Be Passed
in Safety.
Odd, Va.—"I am enjoying better
health than I have for 20 years, and I
believe can safely
say now that I am a
well woman. I was
tormented on a farm and
had all kinds of heavy
work to do which
caused the troubles
that came on me later.
For five years
during the Change of
Life I was not able
to lift a pail of wa-
ter. I had hor-
rifying headaches which would last for weeks and I
was not able to sit up in bed. I suffered
a great deal with my back and was so
nervous I could scarcely sleep at night,
and I did not do any household work for three
years.
"Now I can do as much work as
any woman of my age in the country,
thanks to the benefit I have received
from Lydia E. Pinkham's Vegetable
Compound. I recommend your remedies
to all suffering women."—Mrs. MARTHA
L. HOLLOWAY, Odd, Va.
No other medicine for woman's ills has
received such wide spread and unquali-
fied endorsement. We know of no other
medicine which has such a record of
success as has Lydia E. Pinkham's
Vegetable Compound. For more than 30
years it has been the standard remedy
for woman's ills.
If you have the slightest doubt
that Lydia E. Pinkham's Vegeta-
ble Compound will help you, write
to Lydia E. Pinkham Medicine Co.,

Bed-Wetting Cured in Ten Days

URI-STOP WILL CURE

Don't Wait For Children to Outgrow
the Trouble—Start Them Taking
Uri-Stop Today

Bed wetting with all its disagreeable
after-effects is a common ailment. It is
not a disease, but it is a disease and every
parent should assist it in children to
effect a cure by providing for them
Uri-Stop. The wonderful success
realized by this remedy seems little
short of miraculous. It has been used
in Connellsville for many years. The
effectiveness of the urine is not a
hard thing to cure, but it is a disease
eliminating the entire urinary system
as well as the bladder and kidneys.
Uri-Stop is put up in tablet form, pure
and harmless. It is taken by the most
delicate child. Mail orders solicited.
Price 50c per box.

The DeWitt Chem Co. Peoria, Ill.,
are the only ones who sell Uri-Stop. They
proprietors of Uri-Stop and they have
authorized their local agent, A. A.
O'Neil, to refund your money if you
are not benefited after a careful trial.

LAKE REGION ORE PROFITS HAVE BEEN UNREASONABLE

Commissioner of Corporations Report
Shows Steel Combine For
Its Disproportionate
Interest

Special to The Courier
WASHINGTON, D. C., Jan. 22.—Un-
reasonable profits are made on iron
ore of the Lake region, excessive earn-
ings flow into the treasury of the
United States Steel Corporation from
its ore transportation facilities which
suggest the necessity from the stand-
point of public policy of manufacturing
the ore railroads from the giant cor-
poration, and large inter-company
profits are made by consolidated ore,
iron and steel companies according to
a preliminary report on the cost of
production in the steel industry by
Herbert Knox Smith, Commissioner of
corporations, made public last night.
The report was presented to Presi-
dent Taft and sent to the House Com-
mittee on Ways and Means for con-
sideration in connection with the pro-
posed revision of the steel tariff
schedule, upon which the Democrats
will caucus today.

"The prices of lake ore," the report
discloses, "have been kept for many
years at an unreasonably high level
compared with the cost of production
and the cost of the investment in the
producing of ore articles."

In connection with the alleged ex-
cessive profits realized by the Steel
Corporation from its ore railroads,
Commissioner Smith says that the con-
trol of public agencies of transportation
carries with it such possibilities of
abuse that the question is raised
whether the public interest in this in-
dustry does not require a segregation
of the ore railroads from the Steel
Corporation.

In so far as the Steel Corporation
enjoys monopolistic power, the re-
port states it lies chiefly in its hold-
ings of ore and its railroad transpor-
tation facilities.

Uniontown at South Side.

The Uniontown Herald has unearthed a deep plot to have Charleroi Alton referee games here on all occasions. On top of this is the "threat" to expose the whole who let the cat out of the bag. If one of the Connellsville referees dares to question the statement.

Shoel! Sam your director of the Connellsville Basketball Association. If he could land Alton here as a steady thing he belongs right on the schedule committee, where the Cokers have been consistently bumped for the past two seasons.

Melzel is working in all Uniontown games "by request" is he not?

That Alton matter is quite a complaint. The little fellow in Johnstown's best this year. The players do not like him but he never lets the game get away from him. The charge that he is a "phony" referee is not without merit. Every referee in the league is a "phony" referee. To hear the other fellows tell it. Any team playing real basketball, and this applies to the Cokers as well as any other team in the league, need have no fear of the referee. Unbiased was named. That is one reason this year about "getting the worst of it" on the road, frequently named out as a Coker excuse for constant losses off the home dock, does not listen well in this neighborhood.

Johnstown lost to Uniontown last night. Wasn't it Joe Fogarty who made some reference to the "pink rabbits"? "Think Joe's got a final in a suit of colored underwear which Uniontown keeps in captivity. However, the Jovis should win the pennant hands down, despite the yellow streak several of the prospective champions are alleged to possess.

Last time the Cokers stacked up against four teams in a row they won three of them. Here's hoping!

Poor Joe Fogarty is getting slunked everywhere he goes. At Charleroi he is alleged to have said, "It is a home referee, all right," referring to Melzel. This got him in bad with the Charleroi referees. And at that Joe came somewhere in the vicinity of the truth.

Over in Charleroi they call Wild Bill Herron. Mr. William. Pleased to meet you, Sir Bill.

At Charleroi the other night the first suspension in the league this year occurred. Keenan was out of the game and fined \$5 for talking back to referee Melzel. Always knew Bill would get canned at least once a season.

The Washington and Jefferson football management has arranged a game with Penn State. The signing of the contract for this game may stop negotiations with West Virginia for a game. If so it will be the first time that these two teams have not met for a number of years.

HEALTHY DIVIDEND EXPECTED OF B. & O. THIS YEAR

Reduction in Operating Expenses While Gross Earnings Increase 8 Per Cent. Common.

Prospects are bright according to reports in financial circles, that the Baltimore & Ohio will earn good dividends on the common stock during the present fiscal year. Some are predicting that 8 per cent will be about the right figure. The second anniversary of President Wilson's incumbency sees the railroad once more upon its feet.

According to figures practically official, the company earned 12 1/2 cents a share for the first half of its fiscal year, or over 4 per cent. This is an increase of \$1,045,000 over a year ago. The improvement took place on practically the same gross earnings. Remarkable progress in economy was responsible. Transportation cost for the six months was reduced by \$1,375,000, despite a wage increase which imposed a burden of at least \$1,800,000 on the company's annual income.

This operating department is now equipped as it never was before. During the past six months the company has received 100,000 tons of coal, 100,000 tons of iron ore, 100,000 tons of steel, 100,000 tons of lumber, and over 15,000 freight cars.

The remaining half will probably witness heavy rains in Baltimore & Ohio business over a year ago. With the exception of January, on account of weather, the last half of the year will be heavy up to the best in the road's history.

HAD GOOD YEAR

Monongahela Consolidated Paraded Greater Dividends Than in 1910.

The Monongahela River Consolidated Coal & Coke Company has issued its annual report for the year ended October 31, 1911. The profits were \$1,821,191, equal to 4.01 per cent on the preferred stock. The profits exceed those of 1910 and 1909, which were \$1,588,330. Dividends amounted to \$400,000 were declared against \$200,000 for 1910, \$125,000 for 1909 and \$100,000 for 1908.

During 1911 the following coal was mined: Pittsburgh district, 5,599,413 tons; Kentucky field, 122,941 tons; total, 5,722,354 tons. The total tonnage of the year was slightly under 1910 but better prices prevailed.

The coal average report shows original purchases of 33,075 acres in Pennsylvania and 2,112 in Kentucky, since October 1, 1899, 6,403 acres were purchased in Pennsylvania and 548 acres in Kentucky. The estimate of coal mined and sold is 153 acres in Pennsylvania and 21 acres in Kentucky, leaving a net total acreage of 17,550 acres of Pennsylvania coal and 2,466 acres of Kentucky coal.

TORTURED BY ECZEMA

AWFUL ITCHING AND BURNING DRIVES CHILDREN FRANTIC.

Try This Remedy at Our Risk.

Eczeema often comes from very trifling causes, such as disordered stomach, or the use of alkali soaps. Children's eczeema can usually be traced to something of the sort.

Quick relief from the fiery itching that makes one almost frantic is afforded and it is still more important to cure the disease.

In our new skin remedy, Saxon Salve, we have a complete and successful treatment. Saxon Salve not only cures the itching in a few moments but penetrates the skin pores so that its healing germ-destroying action reaches the very seat of the disease. Great improvement is seen in a few days.

This is the skin remedy that we sell on a positive guarantee to give back your money if you are not satisfied with the effects you get. Try it. Graham & Company, druggists, Connellsville.

NEW WOODMEN LEVY IS EXCITING MUCH OPPOSITION

If Proposed Increase Goes Into Effect, Many Lodges Have Threatened Secession—Advance Is Necessary.

CHICAGO, Ill., Jan. 3.—A convention of the head camp of the Modern Woodmen of America, composed of about 300 delegates representing the 1,500,000 members of the order throughout the country, met in this city today to consider and act upon the question of raising the insurance rates of the organization. The higher rates are proposed in order to conform with the so-called Mobile law, a measure enacted upon by a convention of fraternal insurance organizations held at Mobile a year ago, which decided upon a uniform rate in order to meet the requirements of the insurance laws of many States. Many of the local camps of the Woodmen have protested against the proposed increase and the opposition has gone so far as to threaten secession from the parent organization if the assessment is raised.

STEEL DIVIDEND.

Will Street Journal Estimates 120% on Common Stock Last Quarter.

According to estimates of the Wall Street Journal, United States Steel will have earned about 1.20 per cent on its common stock for the last quarter. It is estimated that the net earnings should reach \$23,000,000. This amount, after deducting depreciation, bond interest, interest on sinking funds and preferred dividends, will leave about \$5,950,000, equal to 1.18 per cent, or at the rate of 4.27 per cent.

The last year was the lowest in earnings since 1908, when 4 per cent was earned on the common stock.

To Name New College Head. LEXINGTON, Va., Jan. 23.—A meeting of the board of trustees of Washington and Lee University will be held tomorrow to consider the question of a successor to Dr. George H. Deane, who recently resigned.
